## DETAILED ACTION

### 1. Election/Restriction

A. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 22-25, 32, 37, 41, 43, 45, 47 in full and claims 31, 33, 34, 35, 40, 42, 44 and 46 in part, drawn to a composition comprising essentially of a polynucleotide encoding an hFGFr obtainable by using the primers of SEQ ID NO:7 and 8, vectors, host cells and methods of making protein, classified in class 435, subclass 69.1.
- II. Claims 26-30, 36, 38, 39 in full and claims 31, 33, 34, 35, 40, 42, 44 and 46 in part, drawn to a composition comprising essentially of a polynucleotide encoding an hFGFr obtainable by using the primers of SEQ ID NO:9 and 10, classified in class 435, subclass 69.1.

B. The inventions are distinct, each from each other because of the following reasons:

Inventions I and II are independent and distinct, each from each other, because they are products which possess characteristic differences in structure and function and each has an independent utility that is distinct for each invention which cannot be exchanged.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter as defined by MPEP § 808.02, the Examiner has *prima facie* shown a serious burden of search (see MPEP § 803). Therefore, an initial requirement of restriction for examination purposes as indicated is proper.

C. Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR § 1.48(b) and by the fee required under 37 CFR § 1.17 (h).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
